Blankets, at a pair	1.25
Blankets, at a pair	1.50
Blankets, at a pair	3.50
Blankets, at a pair	4.48

TRULY 'tis harvest time for frugal housewives. The blanket mills send out two crops of blankets each year—one to sell in mid-summer at low prices to folks who look ahead—one to sell in cold weather to folks who buy only when they begin to shiver. The first crop is now ready for harvest at The Economist—ready for you if you are looking ahead and if you are anxious to save a few dollars. In conjunction with our Annual Blanket Sale we offer at special prices

Sheets, Pillow Cases and Bed Spreads

at prices to make the sale a memorable one. It'll certainly pay you to lay in a year's supply at these prices.

BED SPREADS

Better bargains than we're offering this week were never known in Albuquerque. We are going at this sale with determination to make things hum for the entire week. So, if you are in need of any Bed Spreads, it will pay you to investigate. How the prices run.

TAKING ADVANTAGE OF GOOD HAY CROP

Stockmen Are Making Hay Now to Tide Them Over Winter.

ALL STOCK IS DOING WELL.

Santa Fe, N. M., Aug. 21.—The last week has been warm and dry, with a large percentage of sunshine. The temperature averaged about a degree a day above normal. Practically no precipitation occurred and in some districts additional showers are beginning to be needed, the heat causing a rapid drying out of the soil.

Wheat, oats and barley are maturing slowly in the higher northern districts and harvesting continues, good yields being secured, as a rule. Threshing is also progressing and surprisingly large yields are reported in some instances. Second crop alfalfa has mostly been stacked and considerable work is being done in the native hay meadows, stockmen and ranchmen being anxious to take advantage of the good hay crop to tide over an occasional period of drier or unfavorable weather during the coming winter, thereby reducing their stock losses. Regions from eastern counties state that millet cutting has begun. Range grasses continue good, and all kinds of stock are in excellent condition.

Beans and chili are ripening, and promise good yields. Corn is filling well, is mostly beyond roasting ear stage and thus comparatively safe, except that late dryness will cause some shrinkage on the highlands, as the crop is touched by early frost.

Fruits are ripening in unusual abundance. Melons are also ripening and some are of great size and excellence.

The following notes are taken from reports of correspondents:
Aurora, J. C. Lucero—This week has been very hot; potatoes good; oats and barley maturing slowly;

stock and sheep look well; hopes of a good hay crop.

Geenham, Frank Miera—Good rains at the close of the previous week. The weeds on the range are disappearing and grass growing nicely, being clean and good; no hope for hay crop, however, but good winter grass is expected, and plenty of it. Very sultry the last of the week; stock of all kinds in very fine condition.

Capitan, Clement Hightower—Fine growing week, and crops are making good progress; spring wheat has been threshed; corn getting too hard for roasting ears; grama grass in bloom and growing nicely; no rainfall.

Colmar, W. H. Fulweller—Warm dry week, with no rainfall; grass on range and crops looking fair; beans and chili ripening nicely; corn filling very well; orchards look well; cattle in good condition.

Elizabethtown, George E. Beebe—Warm, dry week; ideal weather for making hay, which work has begun in this vicinity. Highest temperature, 77 degrees; lowest, 34; rainfall, 0.03 of an inch.

Espanola, Frank D. McBride—Hot and dry weather, with no rainfall; native ranchmen busy cutting wheat.
Flora Vista, C. H. Tonkinson—Dry and clear weather; rain badly needed; second crop of alfalfa giving a fair yield; wheat and oats in stack; crops good; range dry, but feed is fair and stock are fat; water plentiful; early apples, peaches and melons are ripening.

Frisco, John R. Milligan—Second cutting of alfalfa finished and yield considerably better than first crop; good yields of beans and corn promised, if frost does not come too soon for the latter; cattle, horses and sheep in fine condition; grass fine in some places on range, but more rain is needed. There is a good supply of water in the creek.

Garcia, Lino Garcia—Some showers the previous week, which, however, did not fully relieve the drought conditions; stock are in a satisfactory condition, but the calf crop is the lightest for several years.

Laguna, Gus Welles—Harvested wheat has considerable cheat; rain is needed for the corn, as the heat is drying it out some, but will be a good crop if rain comes soon; stock are in first-class condition; apples, clingstone peaches and musk melons are ripe. Highest temperature for the week, 56 degrees; lowest, 32; no rainfall.

Las Vegas, Wm. Curtis Bailey—Clear, dry week, fully 56 per cent of sunshine; highest temperature, 94 degrees; lowest, 47; rainfall, .01 of an inch.

Loran, W. L. Besse—Crops in splendid condition.
Los Lunas, Charles F. Jones—Light showers during the previous week, but the river is low; second cutting of alfalfa about over and a light yield; prairie hay being cut, and yield will be quite heavy and quality good. This week was clear and hot; threshing and haying progressing; unusual number of birds, especially sparrows, and were evidently attracted by the great number of grasshoppers on which they are feasting; grapes are badly injured by the hoppers.

Manuelito, W. A. L. Tarr—Pleasant hot week, but nights cool; stock looking fine; green corn, peas and beans plentiful.

Mescalero, J. W. Prude—Wheat is being threshed and yielding very well; some damage was done to it by the recent heavy rains; oat crop the best ever known on the reservation; are beginning to ripen; grass fine and range stock fat; outlook for winter wheat better than for years, and everything is lovely.

Pecos, A. Bustamante—Good growing weather; wheat harvest just begun and is promising; oats, corn and beans in good condition; second alfalfa harvest at hand and is a better yield than the first; stock doing well.

Roswell, U. S. Weather Bureau—A very hot week; rain would be beneficial; highest temperature, 100 degrees; lowest, 59; sunshine, about 72 per cent; no rainfall.

San Rafael, Charles M. Grover—Frequent showers the previous week and grass and crops growing finely; native grass is being cut in the mountains; wheat ripe; apricots and early apples are ripe and trees as full of fruit as they can hang.

Santa Cruz, J. M. Amandt—Wheat was an excellent crop; corn and alfalfa look well; fruits of all kinds are plentiful; gardens fair to good; hot weather is affecting some things, but there is plenty of water yet, and crops are all right; chile damaged some by worms.

Texico, H. R. Putnam—Weather hot and sultry, but good growing weather; some millet is being cut; range fine and stock looking well; crops generally looking exceedingly favorable.

Valley, John W. Archie—Last week was hot; plenty of rain the previous week and the second cutting of alfalfa is mostly finished, with a heavy yield; range grass and water good, and stock doing well; corn patches and gardens good, excepting where grasshoppers have damaged.

Vermejo, H. W. Adams—Weather settled, and harvesting under way of the best hay crop in years; highest temperature, 86 degrees; lowest, 42; rainfall, 0.06 of an inch.

Santa Fe, U. S. Weather Bureau—Clear, warm week, with no rainfall; highest temperature, 85 degrees; lowest, 52; average, about a degree a day above normal; no rainfall. Crop conditions favorable; some wheat harvested and later fields doing finely; also oats and corn; gardens are good; fruits abundant, and the quality excellent; the valley continues very green and pretty.

El Rito, P. Lopez—Wheat harvest begun, and quality of grain and crop very good; corn is doing very well; no rainfall; hay in abundance in this vicinity.

Hillaboro, J. M. Webster—Grass in this vicinity is drying up; rain badly needed; range feed good generally throughout the county; cutting third crop of alfalfa, stock of all kinds doing well; highest temperature, 96 degrees; lowest, 58; rainfall, 0.10 of an inch.

Luna, J. J. Hale—Some light showers in the valley and good rains on the mountains; crops in good condition; grass very fine and stock fat.

Portales, John Meeker—Highest temperature, 97 degrees; lowest, 61; precipitation, a trace; percentage of sunshine, large. An unusually warm week, closing with east winds and fair rain prospects; crops look fine; range grass abundant, and a 75-pound watermelon is on exhibition, raised without irrigation.

Public Is Aroused.
The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver, and kidneys. Mary H. Walters of 36 St. Clair avenue, Columbus, Ohio, writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctors' drugs that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores. Price 50c.

MAY LOCATE AT TOWN OF DAWSON, COLFAX COUNTY

George Tracey, a newspaper man, who has several papers in Oklahoma and Indian Territory, is in New Mexico, and is seriously considering the advisability of starting a weekly paper at Dawson, Colfax county.

Bent Her Double.
"I know no one but my brother, when I was sick with typhoid fever and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores. Price 50c.

Turkish Nougats are fine after a dish of ice cream eaten at Mrs. Fulerton's confectionery store and ice cream parlor.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Mrs. Emma Sawyer.

Unless early and correct treatment is applied the patient seldom survives serious kidney trouble. The doctor attended her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or a bristling sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

HEAVY CRIMINAL DOCKET FOR COLFAX COUNTY

Last week there were twenty-two prisoners in the Colfax county jail at Raton, warrants were out for the arrest of a number of others and several defendants are under bond to appear at the coming term of court next month. The criminal docket will be the heaviest in years.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of potent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all dealers.

THE LEWIS RESIDENCE BURNED AT ALAMOGORDO

Saturday fire destroyed the fine residence owned by I. T. Lewis at Alamogordo. The house was recently vacated by E. E. Sidebottom upon his removal to El Paso and since then has not been occupied. The fire was discovered about midnight, but had so big a start that the building could not be saved. The loss is about twelve hundred dollars.
